RE: CSEA Contract

As you may have learned, the state and CSEA have reached tentative agreement on a new contract. According to the information we have received CSEA wrapped up their negotiations with the state on October 24th. We held off announcing this awaiting a formal announcement from CSEA, however, none has been forthcoming. It is our understanding that CSEA's leadership will be meeting early next week to receive information on the settlement.

At this point we have no specific information regarding the agreement. Once this is available, we will begin a review of its provisions, and issue a summary of the key elements of the proposed contract, along with information on how PEF will proceed.

For the latest information, be sure to continue to check the PEF website for updates.
