SUPPORT

January 6, 2010
A436\John

The New York State Public Employees Federation, representing 59,000 Professional, Scientific, and Technical workers of New York State, supports this legislation.

This bill would increase the amount of funds available to the New York State Department of Labor for the public work enforcement fund. NYSDOL is responsible for enforcement of the State's labor laws including prevailing wage requirements for public construction contracts. However, NYSDOL has not been given enough staff to carry out these responsibilities effectively and efficiently. NYSDOL enforcement professionals struggle to keep up with the large volume of cases they must investigate and the State has not given them the support they need to address the demands of their caseload. This bill would help by adding funds for more NYSDOL enforcement staff. These professionals want to do their job and to be effective in enforcing the laws, let's give them the support they need.

For these reasons, the Public Employees Federation urges you to support this legislation.
